Teaching

Introduction to Digital Humanities
University of Tartu, course for the Faculty of Arts and Humanities, 2023. Designed and led.

Digital Humanities Seminar
University of Tartu, course for the Faculty of Arts and Humanities, 2021-2023. Designed and led.

Digital methods and modern data
University of Tartu, course for the Faculty of Social Science, 2021-2023. Led by Kadri Rootalu.

Digital Humanities and Data Science
University of Tartu, course for Data Science MSc curriculum, 2020-2022. Designed and led.

Processing and Analyzing Textual Data in the Humanities
University of Tartu, course for the Faculty of Arts and Humanities, 2019-2024. Led by Liina Lindström 2019-2022.

Experimental semiotics
University of Tartu, course for the Department of Semiotics, 2017. Designed and led.

Cultural Evolution Seminar
University of Tartu, course for the Faculty of Arts and Humanities, 2017. Designed and led together with Oleg Sobchuk, Artjoms Šela.

Introduction to Wikipedia
University of Tartu, course for Youth Academy, 2016-2017. Designed and led together with Anni

Jürine.

Workshops in R, text mining and reproducible research
I've given 10+ workshops on basics of R, text mining and reproducible research, 2017-2023

Public outreaches

Creation of the Digital Lab at the National Library of Estonia
I've been one of the key people behind the creation of the Digital Lab (DigiLab) at the National Library of Estonia 2019-2024. Digilab is a working group and a platform to facilitate the creation of public value from the digital archives in cultural heritage institutions. Digilab features a running blog to showcase digital humanities research and has collaborated with Novaator, the popular science news outlet of the National Broadcasting Service of Estonia.

Workshops and presentations on digital humanities and its public value
Since 2017, I've given 10+ workshops and public presentations on digital humanities and its potential in creating public value from digital archives targeting researchers, staff of cultural heritage institutions, and teachers in higher and primary education.

Higher education course on Wikipedia
In 2015-2017, working with Wikimedia Foundation Estonia, I created a course, together with academic writing expert Anni Jürine, to teach newcomers about Wikipedia, its value for society, and how to write quality articles in it. The course became part of the curriculum at the University of Tartu Youth Academy, targeting high school students.
